- OATH compliant event-based HOTP security algorithms
- LCD screen, built-in battery
- Built-in button
- Event synchronous
- A 128-seed code system Progress bar design
- Low power consumption, battery lifecycle 5 years
- Waterproof design Flexible customization options on faceplate branding, corporate logos, branding and custom colors to suit your business
- Teardown self-destruction function Casing is able to customized (on demand)

mOTP m100 is a connectionless device offering user true zero-footprint authentication.

mOTP m100 complies with OATH standards in event-based authentication methods. It works with OTP authentication server as well as other 3rd remote access and network access devices, to provide best-of-breed solutions for security needs

System Requirements	
Support OS	
Software Interfaces	C#, C/C++, Delphi, Java, PB, VB, VC, VS, NET, .etc.
Physical Characteristics	
Hardware Certification	CE FC
Number of digits displayed:	6 standard
Battery lifecycle:	Standard lithium battery, an average of 5 years' life
Algorithm:	On-board OATH security algorithm
Casing:	ABS
Operating Temperature:	-0℃ — +50℃
Storage Temperature:	-20℃ — +70℃
Endurance:	More than 15,000 clicks
